

California Natural Gas Vehicle Coalition

2003 AGENDA

Member Services

The CNGVC is committed to maintaining and increasing value to members.

-  Website
-  Newsletter
-  Customer Service Council
-  Industrywide annual meeting
-  Programs to build relationships among members, with other industry players, and with like-minded organizations
-  Fuel station directory

Regulatory Action

The CNGVC's goal is to become a prominent player in shaping clean-air and energy regulatory policies and priorities.

-  Work with CARB and the EPA to strengthen and expand the Moyer program
-  Work with the California Energy Commission to expand its NGV infrastructure development programs
-  Work with CalTrans to develop highway signs for CNG and LNG stations
-  Promote NGV-based mobile emissions credit programs to local air districts

Outreach

To help gain public support for NGV initiatives, the CNGVC is working aggressively to educate key audiences.

-  Media relations activity, including news releases, story pitches and more
-  Legislative visits and relationship-building
-  Special events in legislator districts to celebrate NGV milestones and achievement
-  Success stories about NGV projects

Legislative Action

The CNGVC will work to enhance support for current NGV-friendly programs and to persuade the legislature to adopt new programs in crucial areas.

-  Medium- and heavy-duty vehicle incentive funding
-  Light-duty vehicle incentive funding
-  Infrastructure incentive funding
-  Technology development funding
